

Weed Out the Facts – Medical Marijuana Update

Join us in welcoming Ed Murray, Attorney at Krugliak, Wilkins, Griffiths & Dougherty, this month to present an update on Medical Marijuana.

Ed’s practice focus is employment, corporate, and commercial law. His practice is concentrated in workers’ compensation as he counsels employers on every aspect of their workers’ compensation programs.

Certified since 2003, Ed is a specialist in Ohio Workers’ Compensation by the Ohio State Bar Association. He is a member of the Ohio State Bar Association Workers’ Compensation Committee.

Ed joined the Eastern Stark County Safety Council Steering Committee in November, 2017. With his background and experience he has become a valuable asset to our Committee and to our membership. He has a good sense for current challenges that our member companies are experiencing relative to safety and workers’ compensation!

ASK ROBIN

Q: I had an employee that was stuck by a contaminated needle therefore I sent the employee to a healthcare professional for a post-exposure medical evaluation. What does OSHA require that I provide to the healthcare professional?

A: OSHA requires the employer to provide the following information to the healthcare professional:

- A copy of the OSHA 1910.1030 standard;
- A description of the employee's duties as they relate to the exposure incident;
- Documentation of the route(s) and circumstances of the exposure;
- The results of the source individual's blood testing, if available; and
- All medical records relevant to the appropriate treatment of the employee, including vaccination status, which are the employer's responsibility to maintain.
